SCV Asked to Step Up Water Conservation: March 4-10

During March 4-10, 2018, the Santa Clarita Valley will not have access to imported water from Castaic Lake due to scheduled maintenance being performed by the California Department of Water Resources.

Typically, half of our water in the SCV comes from imported sources.

Every drop counts. Turn off your irrigation from March 4-10. We need the cooperation of all Santa Clarita Valley residents in

conserving water by not irrigating your landscapes during that time.

To learn more about the scheduled maintenance or to get answers to your frequently asked questions, click [here](#).

We appreciate your cooperation.
